Yes.

I have a meetings from 10:30-12:30 and 1:00-2:00 and my van leaves at 4:45. So sometime between 2:15 and 4:30 would work well.

I am in the process of finalizing my comment letter. I have added some language to comments 7 and 12 to address some of Akhter's concerns regarding analytes required for closure samples. I will send a draft to you as soon as I hear back from Akhter.

Chris, do you have some time today for a quick call from Lin and me? This is not a technical call but it has bearing on your requests/plans for us.

Subject: Draft comments on the IRM work plan

Marty and Mike-

Attached are draft comments generated for the work plan by EPA. Akhter and I will be talking on Monday, so this letter may change slightly based on our conversation, and there may be a few additional comments; however, the general content of comments presented should not change. I wanted to go ahead and get these to you so you could start thinking about how to address them. Let us know if you would like to have a conversation to discuss the comments. I should be available most of next week.
